

# MR26

## Geared machine for heavy-duty elevators

The GEARED MR26 is designed for maximum load capacities and is ideal for industrial elevators and lifting systems with exceptional requirements. It combines a robust construction with maximum adaptability.

## Overview

With a load capacity of up to 3000 kg, the MR26 delivers reliable performance in heavy-duty applications. Custom options and special configurations are available on request – tailored to complex projects and specialized solutions.

## Machine versions

### MR26

<b>Maximum Static Load:</b>	6600 kg / 64.7 kN
<b>Maximum Capacity:</b>	3000 kg
<b>Reduction Ratio:</b>	1/72; 1/57; 1/44; 2/63; 2/45; 3/55
<b>Oil Capacity:</b>	10.8 l
<b>Power Range:</b>	50 Hz › 11 ÷ 43 kW 60 Hz › 12 ÷ 47 kW 33 Hz › 11 ÷ 29 kW

### MR26 SSB

<b>Maximum Static Load:</b>	6600 kg / 64.7 kN
<b>Maximum Capacity:</b>	3000 kg
<b>Reduction Ratio:</b>	1/72; 1/57; 1/44; 2/63; 2/45; 3/55
<b>Oil Capacity:</b>	10.8 l
<b>Power Range:</b>	50 Hz › 11 ÷ 43 kW 60 Hz › 12 ÷ 47 kW 33 Hz › 11 ÷ 29 kW
