

# SH110B

## Compact geared machine for elevators

The GEARED SH110B is a versatile geared machine for elevators and lifting platforms. It is based on proven technology and is suitable for applications with moderate load capacity. Various versions and custom solutions are available upon request.

## Overview

With a load capacity of up to 400 kg, the SH110B offers a compact and reliable solution for a wide range of applications.

Depending on the area of use, various options and configurations are available and can be tailored to individual requirements.

## Machine versions

### SH110B

<b>Maximum Static Load:</b>	2100 kg / 20.6 kN
<b>Maximum Capacity:</b>	400 kg
<b>Reduction Ratio:</b>	1/55; 1/43; 2/55; 2/43
<b>Oil Capacity:</b>	2.9 l
<b>Power Range:</b>	50 Hz > 2,7 ÷ 5,5 kW 60 Hz > 4 ÷ 6 kW

### SH110 SSB

<b>Maximum Static Load:</b>	2100 kg / 20.6 kN
<b>Maximum Capacity:</b>	400 kg
<b>Reduction Ratio:</b>	1/55; 1/43; 2/55; 2/43
<b>Oil Capacity:</b>	2.8 l
<b>Power Range:</b>	50 Hz > 2,7 ÷ 5,5 kW 60 Hz > 4 ÷ 6 kW
