

SH190

Geared machine for high demands

The GEARED SH190 is designed for maximum performance and is ideally suited for elevators and lifting systems with particularly high load capacity. Its robust construction and customizable design make it the first choice for large-scale projects.

Overview

With a load capacity of up to 1,800 kg, the SH190 delivers reliable performance in demanding environments. Numerous options and special versions are available on request – precisely tailored to your project.
